

In Year 2 this month we have been learning

We have been busy exploring shape in maths.

We have been learning the names and the properties of both 2D and 3D shapes. We looked at symmetry and patterns.

In Literacy we have enjoyed thinking about Christmas and our family traditions at this time of year.

Using our thoughts about Christmas we each wrote a Christmas poem describing the exciting things we enjoy during the festive period.

Another focus linked to our fairy tale topic has been in DT. We have been designing, planning and making our very own moving picture scene. We learnt how to make different mechanisms. We learnt how to make two different flaps, a spinner, a lever and a slider.

The whole of Year 2 has been very busy learning songs and learning lines ready for our Christmas concert. We cannot wait to show everyone!
