

# Reception News March 2023

## World Book Day

## Library Visit

We went to visit Willowhale library. We learned all about the types of books we can borrow. The librarian read us a story and we all got to use our library cards to take a book home.

## Understanding the World

We have been scientists learning all about growing plants. We know they need soil, water and sunlight. We have been writing bean diaries as we watch our beans grow. We have looked at nature and signs of Spring.

We used the Chatterpix app to talk about the characters we had dressed up as.

## EAD

We made lots of Easter crafts in preparation for our celebrations. We collaged Spring gardens, made eggs and Easter bunnies.

## Maths

We have been using number lines for adding and taking away. We have been learning our doubles.

## Our History

We have had great fun learning about our own history from when we were babies until now. We have talked about what we could do then and now. We loved trying to guess who was who from our baby photos.
